To,
The Honorable Alumni
Government College of Engineering & Ceramic Technology (erstwhile CCT)

Sub: Invitation for participation in the **National Symposium cum Alumni Meet** organized by GCECT Alumni Association on 28th January, 2017 at Kolkata

Dear Alumni,

It is our great pleasure to share that our GCECT Alumni association is organizing an Annual National Symposium titled "**Growth and Opportunities in Ceramics, Refractories and Information Technology Industries – an Insiders' view**" on **28th January, 2017** (Saturday) at **Kolkata**. This one day event will also mark the much awaited **GCECT Alumni meet** planned jointly with the symposium. As the esteemed alumni of our Institute are undertaking leadership roles in various fields of iron and steel, refractory, glass, ceramics, project consulting as well as IT and ITES sectors, we envisage that an ensemble of such a versatile professional under one platform would make the symposium extremely business centric, collaborative and successful - and would pave the way for the grand alumni interactions!

We, on behalf of the GCECT Alumnus, would personally solicit your full support and active participation in the event as well as during the process of organizing the event. For your information, this will be a full day program which will start at 9:30AM and end with cocktail dinner for the delegates and participants. So, please mark the date in your calendar, register immediately to avail the discount and book your travel tickets. The details of the event as well as bank details for registration is mentioned in the brochure attached herewith.

Also, as our esteemed alumni, we look forward to your valuable suggestions and comments towards making the event a great success! Please feel free to contact us or our office bearers for any clarifications.

So, dear alumni, let's meet and jointly make it a big success!

With Warm Regards

Amit Kr. De
President, GCECT Alumnus
